

Everything included with your CenturionPro automated trimmer.
All CenturionPro trimming machines also now come with a double set of tumblers.

UNSURPASSED QUALITY

Durability

Composed entirely of Anodized Aluminum and Stainless Steel, CenturionPro trimmers are built to withstand prolonged use with zero issues.

Toro Cutting Reel

High quality Toro hardened steel cutting reel combined with our magnetic blade technology, ensures a consistently sharp blade and the cleanest cut in the industry.

Double Set of Rugged Stainless Steel Tumblers

We now include a double set of our rugged stainless steel tumblers with every machine. Larger tumbler diameter ensures greater efficiency and output compared to other machines on the market.

Quantanium Coating

Our Quantanium Coated Tumblers give 40% greater trichome preservation by preventing precious trichomes from adhering to the tumbler surface. Learn more at: cprosolutions.com/quantanium

SIMPLISTIC DESIGN

Easy to Clean

All of our machines, excluding the tumblers, can be quickly cleaned with a pressure washer in 10-20 minutes. The tumblers are easily cleaned with warm, soapy water and a quick wipe.

BEST PERFORMANCE IN THE INDUSTRY

Higher Cutting Power

Incredible cutting power ranging from 20,000 to 140,000 cuts per minute. Each system also comes with a well-designed leaf collector with a range of 1-6 hp motors for pure suction power.

Higher Processing Capacity

CenturionPro machines have an impressive processing capacity with the ability to do the work of up to 160 human workers. This allows our machines to trim a substantial amount of product per hour, dry or wet.

Finely Tuned Diverter

Ensure the preservation of different strains and densities with our unique diverter that allows you to fine tune air flow and cut during the trimming process.

Triple-Bag Kief Collection System

Our triple-bag system is designed for cleanliness, as well as trim and kief collection so you don't waste any of your precious product for further use.

UNSURPASSED CUSTOMER SUPPORT

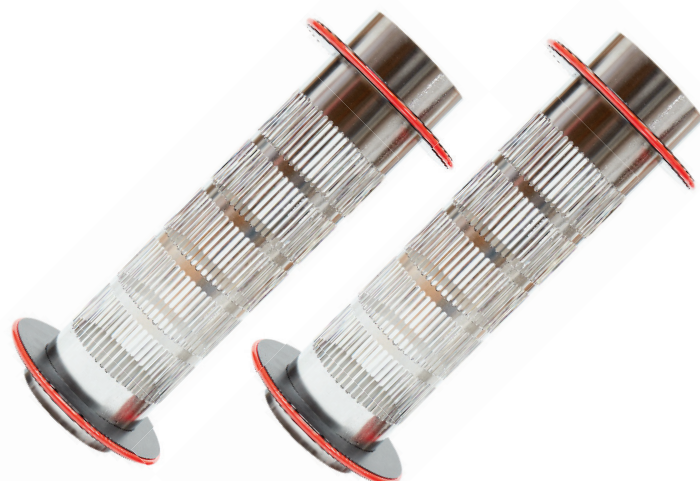

Need guidance on which trimmer is right for you?

BEST WARRANTY IN THE INDUSTRY

At CenturionPro, we know of the problems associated with downtime and the importance of tight timelines when it comes to the harvesting process. This is why all our machines are backed by an industry leading warranty (Trimmers = 10 Years / Buckers = 5 Years). Our knowledge, experience and technology will keep you up and running smoothly for decades to come.

Trust us, we got your back!!

INDUSTRIAL MACHINES

Do you have a commercial operation that requires industrial scale harvesting machines? Experience unparalleled throughput by processing up to 3000 lbs of wet material (600 lbs dry) per hour with our comprehensive line of XL Trimming and Bucking systems. Visit our website for more details or call us at 1-855-535-0558 for a free consultation.

TRIM BOTH
WET
AND/OR
DRY

Our machines are specially designed to trim both wet and dry material.

All CenturionPro trimming machines also now come with an additional tumbler for every tumbler the machine can accommodate, so you can keep on trimming. Avoid unnecessary downtime for cleaning. Just swap the tumbler out and keep running.

TABLETOP

The TableTop is the smallest most efficient tumble style trimmer in the world. At 61 cm L x 25 cm W x 53 cm H and only 22 KG, it can fit practically anywhere in your space. Don't be fooled by the size, the TableTop replaces over 6 human trimmers without sacrificing quality. The compact yet powerful design is capable of processing 15 KG of wet product or 3 KG of dry product per hour of use!

TABLETOP TRIMMER

SPECIFICATIONS	
Input Voltage	6 Amp - 110V NA
	3 Amp - 220V EU/AUS
Dimensions	61 cm L x 25 cm W x 53 cm H
Weight	22 KG
Tumbler Diameter	14 cm
Cuts Per Minute	20,000
Blades Per Reel	7
Warranty	10 years

TABLETOP LEAF COLLECTOR

SPECIFICATIONS	
Input Voltage	12 Amp - 110V NA
	6 Amp - 220V EU/AUS
Dimensions	41 cm L x 34 cm W x 34 cm H
Weight	9 KG
Horse Power	1 hp
Airflow Capacity	1800 CFM
Warranty	3 years

GLADIATOR

The Gladiator is currently one of the highest volume per hour automated trimming machines in the world. This industrial harvesting machine does the work of 40 human trimmers without sacrificing quality, making it an incredibly powerful tool for any commercial operation. Thanks to its dual tumblers and side-by-side design, The Gladiator can process 70 KG of wet product or 14 KG of dry product per hour of use!

GLADIATOR TRIMMER

SPECIFICATIONS	
Input Voltage	7 Amp - 110V NA
	3.5 Amp - 220V EU/AUS
Dimensions	76 cm L x 64 cm W x 71 cm H
Weight	75 KG
Tumbler Diameter	16.5 cm (x2)
Cuts Per Minute	75,000
Blades Per Reel	11 (x2)
Warranty	10 years

GLADIATOR LEAF COLLECTOR

SPECIFICATIONS	
Input Voltage	22 Amp - 220V NA
	22 Amp - 220V EU/AUS
Dimensions	48 cm L x 56 cm W x 58 cm H
Weight	48 KG
Horse Power	4 hp
Airflow Capacity	3,500 CFM
Warranty	3 years

GC1 BUCKER

GC refers to "Gentle Cut" as we appreciate and understand how delicate flowers are. This buckler cuts the flowers off the stem, which prevents the large crown buds from breaking apart into smaller pieces. This keeps the structure of the buds fully intact preserving the look of the flower.

The GC1 can do the work of 2-3 human workers and will buck 20+ kg-per hour-of fully hydrated flowers! The GC1 accepts wet or dry stems up to 1 cm and produces over 3000 cuts per minute with a 0.25hp motor. Plus it is easy to set up, clean and requires little maintenance!

BUCKS WET	BUCKS DRY	REPLACES
20+	4+	2-3
KG/HR	KG/HR	HUMAN WORKERS

GC1 - SPECIFICATIONS

Input Voltage	6 Amp - 110V NA
	3 Amp - 220V EU/AUS
Workers Needed	1
Warranty	2 years

GC3 BUCKER

Whether you buck wet or dry, the GC3 buckler will successfully de-stem flower at a rate of 60 kg (or more) per hour of fully hydrated flowers. This system also provides unparalleled processing capacity and produces over 10,000 cuts per minute with three 0.25hp motors.

3.0

The 3.0 Medical Grade Trimming System is one of the highest industrial capacity automated trimmers in the world – and it comes Health Canada/FDA ready! This machine is composed of medical grade anodized aluminum and stainless-steel components to meet all regulatory standards. This machine can replace up to 75 human trimmers – without sacrificing quality and will harvest a whopping 115 KG of wet product or 23 KG of dry product per hour of use!

3.0 TRIMMER

SPECIFICATIONS	
Input Voltage	13 Amp - 110V NA

** HP1 stand included with the option of industrial casters or flat free off-road tires.

HP1 BUCKER

HP refers to "High Performance" and utilizes two rollers that pull the stem into the machine and pop the flowers off. This allows you to continuously feed the buckler for more efficient de-stemming and results in the industry's highest buck rate per hour.

The HP1 has a single workstation that is suitable for tabletop use or can be combined with an optional buckler stand. With various holes, the HP1 accepts wet or dry stems up to 1.9 cm and can buck 80 kg (or more) per hour, replacing 5-7 humans. Made of stainless steel and anodized aluminum, it is robust as well as easy to clean.

Warranty	2 years

HP3 BUCKER

The first triple-headed buckler, the HP3 can buck 240+ kg per hour of fully hydrated flower. With a variable speed controller this de-stemmer provides unsurpassed power, adjustability, control and is easy to set up. Made of stainless steel and anodized aluminum, it is robust as well as easy to maintain.
